

**IronHealth®**

Risk Management Services  
for Federally Qualified  
Health Centers

Every Ironshore FQHC Insured receives a risk management budget at the beginning of every policy period. These dollars may vary based on the policy premium but, at a minimum, each insured receives \$1,000. These "Risk Management dollars" may be used to reimburse the insured for any expenditure related to reducing, mitigating or avoiding risk. Some of these activities and services may include education, training, the purchase of risk related materials, registration fees for conferences, travel expenses related to the conferences, etc. While many of our Insureds are provided with risk management services through the Health Resources and Services Administration, the Ironshore stipend can cover expenses for valuable services outside the federally funded risk management services program.

### Risk Management

"Risk Management dollars" for insureds to be allocated toward the purchase of risk management products and services from the providers of their choice. To help stretch those dollars, IronHealth actively establishes partnerships with the leading Healthcare Risk Management providers to secure access to quality programs, many at discounted pricing.

### Webinars

- In 2015, IronHealth, in conjunction with Pamela L. Popp, EVP/Chief Risk Officer of Western Litigation, Inc. will host three webinars which will focus on security, crisis and reputational risk management and clinical quality metrics.
- IronHealth insureds are also invited to participate in Western Litigation's client webinar series ERM: Empowering the Risk Manager series.
- The webinar schedule and details may be found here:
