

IronPro®

Data Insure

Data Insure by IronPro protects against a broad spectrum of network security and privacy exposures. The fallout from a cyber incident can include the costs associated with notifying individuals of a data breach, providing credit monitoring, complying with regulatory investigations and fines, restoring data and network equipment, and paying cyber-extortion ransoms. Additionally, the risk of lost revenue and/or reputation due to a cyber incident is as significant as ever. Protect your business with Data Insure to help pay these costs and provide expert assistance during a time of crisis should one arise.
